CURRENT HAPPENINGS

Disseminating knowledge is what The Arboretum is all about. This rather lofty, broad statement is extraordinary when one looks at the definition of "disseminate"... "to scatter widely as in sowing seed." The act of "dissemination" encompasses an unlimited and incredible array of activities. Of course, The Arboretum continually focuses on plants and relevant information about early California history, but just about any subject fits into these two fields.

Our Education Department, led by its director Gail Shair, is busily approaching this mission of dissemination of knowledge in an array of venues. We are planning more course offerings in languages other than English, including Spanish, Korean and Mandarin. Additionally, Gail has great news for The Arboretum...a future member has arrived; a boy named Lucas, born on May 31, 2002. Congratulations!

Our Librarian, Joan DeFato is taking the necessary steps to make our "source of information" more user friendly, and will encompass a greater array of information. Plans call for her to have all of the knowledge-based resources—our plant records, maps, and audio-visual asset—at her immediate

disposal, under "one roof." Under such a scenario, visitors, researchers, and students will be able to access such information at our "one-stop" center of Arboretum information.

Life at The Arboretum continues to provide information that is exciting and worthy of dissemination. Did you catch the incredible six week display of more than 5,000 flowering Japanese Iris? Are you stopping at our Rose Garden to "smell the roses?" Have you been watching the daily growth of our bamboo? Have you walked amongst our gardens during twilight? We hope you will visit us soon, for it is truly great being here.

JAN SMITHEN: AFTER 18 YEARS OF SERVICE WHAT CAN BE SAID?...A LOT!

*"Words cannot express what her passion
has done for The Arboretum."*

*"She has expanded the horizons of
generations of LA gardeners."*

*"She has left a magnificent legacy
of inspired gardeners."*

Such were the words that flowed, or rather flowered, as the marvelous career of Jan Smithen, founder, leader and instructor of the Fanatic Gardeners, was recently celebrated at The Arboretum on her retirement.

She would say she simply taught gardening for 28 years. However, for all those that she touched in her classes or encountered in the gardens of The Arboretum, from the "green thumb" beginner to the more experienced master gardener, she planted an everlasting seed of love for the garden and her belief that "one who plants a garden, plants happiness."

Jan has lived and gardened in Southern California all her life. For 28 years she has taught gardening classes, starting at South Coast Botanic Gardens and in 1984 creating classes called the "Fanatic Gardeners" at The Arboretum. She has led garden tours to England, the south of France, and Italy, lectured on many garden subjects, and produced a video, "Lavender in The Garden."

Jan, we wish you all the best. We are all better gardeners because we have a little bit of you and your garden in us! Thank you.

Jan with her mother Lillie Smithen and sister Laurie Kraybill

MESSAGE FROM TIM GALLAGHER, DIRECTOR, PARKS & RECREATION

CREATING COMMUNITY THROUGH PEOPLE, PARKS AND PROGRAMS

Creating Community through People, Parks and Programs. This statement coined by the California Parks and Recreation Society VIP-Vision, Insight, Planning Project is being adopted by L.A. County Parks and Recreation Department as our core value and belief in what we do for our community.

As stated in the VIP plan, Create is to bring into being or cause emphasizing the active role of parks and recreation in the task of creating community.

Community is a sense of belonging, ownership and common purpose that develops among people who live or work together.

People are our staff and volunteers who make connections with our clients and residents to improve lives. We are the essential connection to people and

their needs in the community and settings that we serve.

Parks-we are known for our parks and open spaces. They create a green infrastructure, provide relief from urban development, increase property values, and provide opportunities for recreation through our facilities.

Programs are the recreation activities and services that we provide to produce specific outcomes or benefits to our clients. Our programs are an important means of connecting with clients and creating community.

In working with children, teens and their families we often have one opportunity to reach an individual, to provide them with guidance, to show them that adults care, and to provide a positive environment for growth and learning. That is

the cornerstone of what we do and the cornerstone of Creating Community through People, Parks and Programs.

The direction we will embark on as a Department is to move forward in a leadership role for our community, to provide opportunities for children and the families of those children, and, most importantly, to bring positive change to the world we live in.

My belief is that we have chosen this profession because we care about our environment, our children and our community. This is true no matter what position or what level of the organization you fit in. As individuals and employees I will look for true believers in our mission to create a positive community.

I look forward to working with all of you to achieve this vision.

Tim Gallagher

LONG RANGE PLAN PHASES 1 & 2 ENTHUSIASTICALLY RECEIVED AT ADVISORY BOARD INAUGURAL MEETING

The May 20th inaugural meeting of The Arboretum Advisory Board, established to assist The Arboretum with its development, concluded with an enthusiastic and positive response to the first two phases of The Arboretum's Conceptual Long Range Plan. All phases of the plan are expected to be completed by the end of 2002, or in early 2003. County administrative personnel, Arboretum staff and volunteers, foundation trustees and several other community leaders also attended the meeting.

Plan Phases Reviewed

An exciting visual presentation by Victoria Pakshong and Bill Hardman, of Nancy Goslee Power & Associates, summarized the goals of the plan and outlined a careful study of the history of and present conditions at The Arboretum — including the strengths in its collections, its views, its natural water elements, its historic components and its unique and impressive potential.

Phase 3 preliminary plans for the "arrival experience" at The Arboretum were also unveiled along with evolving concepts for a children's discovery trail and for making the entire Arboretum an ethnobotanical center — focusing on the essential and fascinating connection between plants and people as the informing theme for future development of The Arboretum.

5-Year Plan

The Arboretum's current Five-year Plan identifies eighteen major programs and facilities initiatives ('projects')

anticipated to be developed at The Arboretum over the next several decades. The Conceptual Long Range Plan is intended to guide The Arboretum's development for the foreseeable future — ensuring that development will be done in a well-thought-out, cohesive, harmonious and organized manner, with appropriate infrastructure and amenities — to be sure that the result is excellent in all respects.

New Advisory Members

Peter Strauss and Dr. Eric T. Haskell recently joined the Arboretum's Advisory Board.

Mr. Strauss is best known for his leading role in the TV mini-series "Rich Man, Poor Man" and many made-for-TV movies and mini-series such as "Peter Gunn", "Masada", "Kane & Abel", and "The Jericho Mile", for which he received an Emmy. However, it is his love for the garden that has brought him to our Advisory Board. "If life is a process of wearing you down", says Peter, "then gardening is a way of staying even." Mr. Strauss's own garden is a botanic paradise including spiny and succulent plants, an orange grove, a Mediterranean garden, a native plant preserve and rose gardens.

Mr. Strauss is also national spokesperson for The Scotts Company Miracle-Gro®, the leading brand in plant foods.

Dr. Haskell, Professor of French and Humanities at Scripps College and Director of the Clark Humanities Museum also joins the Advisory Board. Recently honored as the guest speaker for the Millennium Meeting of the Garden Club of America, Dr. Haskell's distin-

guished career is equaled by his gift for informing and delighting his audiences. A frequent guest lecturer, Dr. Haskell has delivered over 300 lectures in twenty-two states and in nine foreign countries.

Dr. Haskell's publications, in English and French, cover a wide range of topics from nineteenth-century poetry to garden history. His most recent book, *Le Notre's Gardens* accompanied an exhibition he curated at The Huntington Library, Art Collections & Botanical Gardens.

Welcome to the Advisory Board.

CONGRATULATIONS AND THANK YOU

Bill Bochte (L), Past President of Los Voluntarios and Donivee Nash (R), Immediate Past President, LAAF, receive Board of Supervisors of Los Angeles County recognition commendations from Tim Gallagher, Director, Parks & Recreation. Received for their extraordinary contributions to The Arboretum over the years, this award is an extreme honor acknowledged by all five County Supervisors. Donivee's and Bill's receipt of the award goes into the history record books for LA County. Congratulations and thank you for all you have both done for The Arboretum!

JOAN DEFATO RECEIVES THE CHARLES ROBERT LONG AWARD

The Arboretum's Plant Science Librarian, Joan DeFato, was recently chosen by the international Council on Botanical and Horticultural Libraries, Inc. (CBHL) to receive the prestigious Charles Robert Long Award of Merit. Along with the standing ovation from her colleagues in CBHL at the award presentation, we give her our own Arboretum ovation.

Awarded only 8 other times, the Charles Robert Long Award was named for Bob Long, the one-time New York Botanical Garden, institutional vice-president and NYBG's head librarian for many years. Recognition for Joan, by her peers, honors her extraordinary contributions, collaborations and service to fellow librarians and botanists, nationwide, during a most illustrative career.

Since 1973 Joan has

served as The Arboretum's librarian. In addition, she has been a 25-year member of the CBHL serving as a member of the Board of

Directors from 1982-1985 and as President of CBHL from 1983-1984. Joan is also a Director of the Pacific Horticulture Foundation, publisher of *Pacific Horticulture* and has been recording secretary since 1988.

NEW THURSDAY MORNING SEMINARS TO START IN SEPTEMBER

After 18 wonderful years, Jan Smithen's 'Fanatic Gardener' classes at The Arboretum have come to an end. To fill Thursday mornings at The Arboretum, an exciting new top-notch hands-on seminar series will begin in September for enthusiastic Southern California gardeners and garden designers.

During the next year, three series of eight seminars each are planned, with the Fall Series starting September 2002, the Winter Series starting January 2003 and the Spring series starting March 2003

The series will be characterized by a stellar array of outstanding teachers and lecturers - some with high name recognition - on all aspects of gardening and horticulture - always geared to the Southern California gardener. Series speakers will include, as available, visiting garden-types from around the country and the world, The Arboretum's own personal and physical

resources. And, it is anticipated that Jan herself will be an occasional speaker.

Visits to outstanding private and public gardens, through The Arboretum greenhouses and gardens, and to selected nurseries and other sites of particular interest will be featured in each series. Occasional free brown-bag lunch informal chats with instructors and lecturers in the Sunset Demonstration Gardens - open only to class members—are also planned.

To be put on the mailing list to receive final details and registration information on the Thursday morning series, please contact Jill Berry: jill.berry@arboretum.org or call 626.821.4624.

If you have any questions, if you have suggestions of speakers, topics or field trips, if you'd like to be involved in planning, or if you have ideas for a name for the series, contact George Brumder: brumder@earthlink.net or call 626.795.0315.

"DISCOVERING CHINESE MEDICINAL HERBS"

The Arboretum continues its focus on ethnobotany as a major theme for education, interpretation and future development with two new lectures this fall and winter.

On Tuesday, October 1, Robert Newman, licensed acupuncturist and herbalist and former curator of the Chinese herb garden in the Nanjing Institute of Botany, Jiangsu Province, will talk about Chinese herbal medicine and Chinese medicinal plants as part of The Arboretum's continuing Ethnobotanical Series. The lecture, "Discovering Chinese Medicinal Herbs," will start at 8:00pm in Ayres Hall.

Mr. Newman will discuss basic history and concepts of Chinese herbal medicine, the doctrine of signatures (function follows form), various types of herbal preparations, and some well-known Chinese herbs, some of which can also be used as food. Live herb plants will be displayed and seeds of a few Chinese medicinal plants may be available for distribution.

Mark Your Calendar for December 11

On Wednesday, December 11, Jonathan Ott, an authority in the field of psychoactive plants and mushrooms, including shamanic inebriates, or entheogens used for millennia by traditional societies will speak on his research and travels in South America and the ethnobotanical history of coca. The lecture will start at 7:30pm in Ayres Hall.

Ticket Information

Lecture tickets for the fall and winter Ethnobotanical Lectures are \$10 for LAAF members, \$12.00 for non-members and \$8.00 for students with identification.

History Highlights

1885

This photo of Lucky Baldwin's Lily Pond illustrates the decorative use of granite boulders, a signature landscape element at the Baldwin Ranch home site, which is today's Arboretum.

The photo also highlights both a planting of calla lilies and an artesian fountain inside the lily-lined pond. More

granite boulders are visible along the roadway behind.

The Lily Pond was located just south of the Queen Anne Cottage, near the old Boathouse (which can be seen in the upper left corner of the photograph). The Lily Pond was removed in 1972.

AUGUST 8 INSIDE THE ARBORETUM

Nelson Holmes, Senior
Tour Guide

Nelson Holmes provides an introduction to and overview of The Arboretum. Because The Arboretum segregates its collections geographically, you will also travel from one continent to another. Discover the bowl at Tallac Knoll; understand that Baldwin Lake is actually a sag pond, created by an earthquake fault; hear about wonderful and rare trees living here. View now-common flowering trees that were actually introduced by The Arboretum over the last fifty years.

AUGUST 22 ORCHID AND TROPICAL GREENHOUSE TOUR

Julie Norman,
Orchid Curator

The tour begins with a tram ride to the Tropical Greenhouse where you will hear about the

culture and uses of rainforest plants. Then, on to the orchid growing area. The orchid collection contains over 10,000 plants. Julie will talk about the care and culture of orchids. Due to space limits, one half of the group will tour the grounds while the other goes through the greenhouses.

"FRESH" - CELEBRATING THE TABLE!

This new Arboretum series encompasses all things wonderful about the kitchen table - from the garden that grows the food to recipes, seasons, and festive decorations that celebrate our love for eating - this series has already proven to be very popular, and many have sold out completely!

Join cookbook authors, restaurant chefs, caterers, florists, gardeners and other "foodies" as they instruct two-hour workshops throughout the year.

Sessions will include demonstrations, tastings, some hands-on, and loads of ideas and information for you to use in your own home. From barbecuing to setting a decorative holiday table, this series will inspire you as well as give you the tools to re-create your own magic.

LOS VOLS ELECT NEW OFFICERS AND HONOR MEMBERS

Barbara Telford of Pasadena was elected president of Los Voluntarios, the volunteer support group of The Arboretum, during their June General Meeting. A Los Vols member since 1994, Barbara's first task, which she continues to this day, was to arrange flowers in bud vases for the Peacock Café. Since then, she has enjoyed spending her time flower arranging for the Queen Anne Cottage, leading historical tours for school children, working in crafts, chairing the Succulent Creations, and performing the placement of volunteers as Second Vice-President.

Serving with the new president for the 2002-2003 year are Carol Cuthbertson of Arcadia as First Vice President, John Barnes of San Gabriel as Second Vice-President,

Sharleen Piereson of Arcadia as Secretary and Mary McGrath of Monrovia as Treasurer.

Service Award Honors

Each year the contributions of Los Vols members to the functioning of The Arboretum is significant in terms of hours and value. During the past year, 28,706 hours were contributed in over 50 areas of service. The hours represent over \$40,000 in value if Los Vols members were to be paid at current hourly rates.

15 New Volunteers Strong!

New volunteers welcomed to Los Vols in 2001-2002 included:

Beverly Anderson, Sierra Madre
Kay Cho, Temple City
Dorothy Dixon, Arcadia
Carolyn Egenes, South Pasadena
Roger Egenes, South Pasadena
Linda Hubert, Arcadia

*Barbara Telford,
President, Los Vols*

Lon Kisman, Pasadena
Justina Lee, San Gabriel
Kelly Miller, Gardena
Gloria Nestlerode, Sierra Madre
Shirley Ruddell, San Gabriel
Laura Scott-Stout, Pasadena
Kitty K.Y. Suen, El Monte
Aurora Varela, El Monte
Zoe Ann Williams, Arcadia

In Memory

Los Vols members are honoring Marilyn Bochte, a 34-year member of Los Voluntarios, who passed away earlier this year with several memorials through-

out The Arboretum where Marilyn enjoyed spending time. A bench will be placed at the Train Depot, a Napoleon's Tomb Weeping Willow will be planted in the coach barn area and antique roses will also be planted on The Arboretum grounds.

Say HI!

When you visit The Arboretum, should you meet a Los Vols member, be sure to say "HI" and thank them for their significant and always important contributions.

THE ARBORETUM'S 2002 ANNUAL MEETING SEPTEMBER 29 FROM 3:30 TO 5:00PM

The Arboretum's 2002 Annual Meeting will take place at The Arboretum on Sunday afternoon, September 29th, from 3:30-5:00pm in Ayres Hall. All members of The Arboretum, their families and friends are cordially invited to attend as the successes of the last year and highlights of the coming year are presented.

While foundation business will be transacted, including a report covering July 1, 2001-June 30, 2002 fiscal year and the election of trustees, the main focus of the meeting will be the Conceptual Long Range Plan. Don't miss your chance to provide input into the plan phases that are in progress, including the new arrival experience, an increased focus on internal and external vistas and views and on natural water features, and a host of other positive, important improvements planned for The Arboretum.

Nancy Power and members of her landscape design firm may be in attendance to answer questions. Following the meeting guided tram tours will be available, and there will be refreshments.
